

Join the GA4GH Onboarding Program!

The Onboarding Program connects Newcomers with Work Stream Guides to help orient and welcome new contributors to the GA4GH community!

Newcomers

Work Stream Guides

The experience begins with a one-on-one meeting between a newcomer and an active member of a GA4GH Work Stream. After this meeting, the newcomer will:

Be provided with resources to help orient themselves

Be accompanied by their Work Stream Guide to upcoming Work Stream meetings

Have a point-of-contact if they have any questions

“

I was able to gather the information about the GA4GH, where to look for different information and which projects I have an interest in. The mentor/guide from the work-stream was very welcoming and really helpful.
